Dear Team,

I hope this message finds you well. I am pleased to inform you that the OWASP (Open Web Application Security Project) has released the much-anticipated **OWASP Top 10 for 2021**.

The OWASP Top 10 is a globally recognized list of the most critical security risks faced by web applications. This updated version sheds light on emerging threats, vulnerabilities, and essential security issues that organizations need to address to fortify their web application security posture.

I highly encourage each team member to familiarize themselves with the **OWASP Top 10 for 2021** as it provides invaluable insights into prevalent security risks. It will serve as a crucial reference point in our ongoing efforts to enhance the security of our web applications.

You can access the full details and documentation of the **OWASP Top 10 for 2021** through the official OWASP website [<https://owasp.org/Top10/>].

Let's collectively engage in understanding and implementing the recommendations outlined in the OWASP Top 10 to bolster our security practices.

Should you have any questions or require further information, please do not hesitate to reach out.

Best regards,
Aparna Mishra
Security Analyst
